

Make it Better for

TAY

Make the process comfortable for youth.

If the following describes you, a family member or a client of yours, we can help.

- Youth aged 16 to 24 who live in Hastings-Prince Edward (serving Hastings from Belleville and Quinte West, and Prince Edward County from Picton)
- Youth who have persistent mental health (MH) and/or addiction issues, including:
 - Those who have some MH challenges who can manage on their own with support
 - Those who have serious MH issues or illness who require additional supports
- Youth who need help connecting to community services (i.e. education, employment, mental health, addictions, housing and/or recreation), including:
 - Those who need help to transition from children's services to youth or adult services
 - Those who require, but are not connected to, community supports

Transitional Aged Youth

Serving Hastings-Prince Edward

Transitional Aged Youth

Why Transition Services?

Services for children end at age 18 and services for adults begin at age 16, making it necessary for youth to move from one agency to another to continue receiving mental health services.

Some youth require services but have not connected with community supports.

Our Mission

To support youth holistically, connecting them to appropriate ongoing services and enhancing their skills toward independence.

Our Goal

To provide support and stability to youth during the transition process and assist them with their emotional well-being and day-to-day activities.

Contact

To make a referral or for more info, please contact: Transitional Connector Youth Habilitation Quinte Inc.

How We Can Help TAY

Support . Connect . Empower

The **Transitional Connector** collaborates with youth aged 16 to 24, their family, and service and care providers to:

- Help youth and their family understand the transition process and available services
- Ensure youth feel comfortable meeting with a new counsellor or at a new service
- Make client-centred decisions

- Provide interim mental health counselling if the youth does not currently see a counsellor
- **Enhance coping skills for** independence

- Coordinate, connect, navigate services
- Consult, advocate and liaise with and on behalf of youth
- Accompany on appointments with a personal introduction
- Support during and after transition
- Engage youth, build on strengths and abilities
- Promote skills development
- Foster independence/resilience by increasing knowledge and supports

The **Transitional Connector** coordinates transitions and services for mental health and addictions, education, employment, living situation, and daily activities to improve the emotional well-being of youth.
