

# Virtual mental health care leadership

## Discussion series

### Shaping the future of virtual mental health care for 2021 and beyond

---

This five-part leadership discussion series is for health care leaders and practitioners seeking to implement, scale and sustain virtual mental health care services in their organizations.

Each session provides a collaborative exchange of ideas among national and international thought leaders in virtual mental health care. Insights will inform our work as we develop an advocacy road map for virtual mental health care in 2021 and beyond.

#### FORMAT

These are recorded panel discussion sessions with guided questions, evaluation forms and additional resources.

This series was offered as a live broadcast from January 26-March 23, 2021.

#### 1. LEADERSHIP LESSONS:

Mobilizing virtual mental health care during a pandemic

#### 2. A CALL TO ACTION:

Widening digital participation in digital health and virtual mental health care

3. Why do we need national standards for virtual mental health?

4. Technology, privacy and compassion in virtual mental health

#### 5. A CALL TO ACTION:

Developing a virtual mental health care workforce and education agenda for 2021 and beyond
