

# Join Our Research Project !

## Enhancing Aging in Place in Aging Communities!

A Graduate Research Project at OCAD University!

Architectural, Interior, and Technological Interventions to Foster “Aging in Place”

Are you

**an older adult (60+) / a caregiver of older adults / an occupational therapist?**

We invite you to participate in our exciting research project of  
Co-designing a residential space for four health challenge scenarios

REDUCED  
MOBILITY

VISUAL  
IMPAIREMENT

HEARING  
IMPAIREMENT

MILD  
COGNITIVE  
IMPAIREMENT

### What's Involved:

- Engaging in discussions and design activities
- Sharing experiences and perspectives
- Co-design a residential space.
- Helping shape strategies for community well-being

### Participant Benefits:

- Gift voucher
- Networking with other participants, caregivers, & professionals.
- Refreshments will be provided.

## Your voice matters!

Together,  
let's enhance well-being for all ages!
