

Supervision: The Evolution of Practice

Supervision: The Evolution of Practice is a full day, in-person conference for mental health professionals spanning all stages of career progression:

- > Clinical supervisors who have experience as supervisors
- > Clinical supervisors who are new to supervision
- > Students and supervisees who wish to engage in supervision to meet CRPO requirements

It brings together OAMHP members, non-members, and various stakeholders to build connection and provide clear direction and best practices in clinical supervision.

The activities of the day will help attendees gain the support and knowledge of best practices in supervision that will allow them to improve their supervisory relationships.
