and Professionals:

All Day Pass - \$80 CAD

WITH INVITED PLENARY LECTURES FROM:

Dr. Terry Bennett

Dr. Peter Jaffe

Invited workshop speakers to be announced soon!

Video-recorded speaker content will be viewable for 90-days post event!

SYMPOSIUM LEARNING OBJECTIVES:

- Interpret the concept and practical application of "evidence-based interventions," highlighting their strengths through critical appraisal
- Articulate the level of evidence supporting mental health interventions across inpatient/live-in treatment, outpatient, and classroom settings
- Explore the balance between treatment fidelity and practical constraints, while demonstrating strategies for busy clinicians to learn new psychosocial interventions and build resilience
