

Join Our Research Study

Participants Needed!

Co-designing a Fairness Dashboard for
Clinical Applications of Artificial Intelligence
(AI) in Mental Health

Purpose of the Study:

Our study explores how underrepresented groups feel about the visual representation of sociodemographic characteristics in digital tools that support fair AI in mental health care.

We invite you to:

- **Learn** about the emerging role of AI in mental health care;
- **Discuss** the use of race-based data to improve research and health equity;
- **Share** your thoughts and feelings within a group setting; and
- **Inform and co-design** more equitable digital tools.
- Participants will receive an honorarium.

Eligibility Criteria:

1. Identify as **Black and/or mixed-race**
2. Lived-experience of mental health challenges.
3. Encountered anti-Black racism, stigma or any other forms of discrimination.
